The Public Private Alliance Foundation (PPAF) is a non-profit organization dedicated to reducing poverty in the world by bringing together business, governmental, community, academic, United Nations and other interests. Through collaboration, we help stimulate entrepreneurship and commerce-related activities and encourage investment for sustainable rural development. Focusing initially on the Dominican Republic and Madagascar, our vision is to make a difference for human betterment.

The objective of the meeting is to bring together representatives of UN Member States, UN entities, the private sector and civil society in order to exchange ideas and information on multi-stakeholder collaboration, to foster the adoption of agreements and to make known practical actions committed or underway. Introductory remarks will be followed by small-group discussions on several themes and the announcement of plans for next steps. Those who wish may continue their discussions after the meeting adjourns.

The UN Public-Private Alliance for Rural Development (UNPPA), an initiative endorsed by the Economic and Social Council (ECOSOC), will facilitate the meeting. The meeting will provide the opportunity for existing and potential partners to highlight instances of collaboration in the UNPPA pilot countries (Madagascar, Dominican Republic, Angola and Ethiopia) and to advance the new work being developed through PPAF and others. UNPPA will prepare a report to ECOSOC for its 2009 session.

A programme will be available shortly on the PPAF website: www.ppafoundation.org. Also, data are being collected on public-private partnerships in the UNPPA pilot countries for the 2009 Report. Please join this effort by completing the template on the website. For further information, please call 914-924-0108.

We hope you will be able to join us and very much look forward to your participation.
