Decade of Sustainable Energy for All - 2014 - 2024

The United Nations General Assembly has announced a **Decade of Sustainable Energy for All, from 2014-2024**. This follows on a start made in 2012 with the Year of Sustainable Energy for All, which has led to broad goals for both industrialized and developing countries.

The Foundation's work to support development of ethanol cookstoves and fuels, in Haiti and elsewhere, fits into this agenda.
