Dear PPAF Colleagues and Friends,

On this Climate Action Day, **YOU** can take direct action by supporting the Foundation's **Safe Cooking in Haiti Project**. If you care about the planet, take this step today! **Each action is important, and actions speak louder than words**. Go to: www.gofundme.com/Safe-Cooking-in-Haiti and contribute as much as you can!

The Safe Cooking in Haiti Project will help Haitian women gain access to newly designed, affordable, safe, clean-cooking stoves and to help install an improved ethanol distillery. These efforts will help the people of Haiti escape the poverty - respiratory disease - deforestation trap of the country's heavy reliance on charcoal for cooking.

Call or email me with your questions: 914-478-3450 or ppafoundation@gmail.com

We are seeking funds for two components of the next phase:

1/ **Manufacture of stoves in Haiti** and related use-testing with distributors and customers (\$10,000).

Pictures below show the prototype stove with a coffee pot and with a cooking pot of the size often used by Haitian families and street vendors.

Local fabrication of the prototype will expand to regular manufacture in a Haitian factory. Stoves will then be provided to distributors and sold to end-users. A portion of sales will be retained by the distributors, who are mainly women, and the rest returned to enable more production and modifications if needed

2/ **Setting up a distillery for fuel** (\$30,000). A small-scale distillery for ethanol (high-proof alcohol) will be installed at a technical school where students will be trained in its maintenance and use. The photo below is an example.

We look forward to your support and hope everyone will get involved. Be sure to send the GoFundMe link to your friends and ask for their help!

People's Climate March, New York City - September 21

More than 120 Heads of State and Government are expected to announce their vision and commitment for reaching a universal and meaningful climate agreement in 2015, as well as make announcements on actions that will reduce emissions, enhance resistance to climate change and mobilize financing for climate action.

We are eager to move ahead in our work and welcome your partnership.

Best regards,
